EXOTIC NATURAL STONES

A well considered selection of Australia's most demanded natural stones.

Victoria Stone Gallery is a stone slab wholesaler, newly established in Melbourne. Our people collectively have more than 50 years experience in the stone industry, with associates in China, Italy and Brazil, giving us access to the finest natural stone slabs. We fully understand the dynamic and ever increasing demands of the market.

OUR STONE GALLERY.

Natural Stone is unique at its heart. Colours, shades and patterns evolve through the quarry, which can give each block a different look. Our Stone Gallery concept ensures you can easily view our exciting range of stone slabs.

TRENDSTONE QUARTZ.

Quartz surfaces are seen in most of Australia's kitchens, typically providing colour and pattern consistency, and maximising desirable physical properties. More recently, kitchen design is trending towards surfaces marble-like in appearance. Through advanced technologies, Trendstone Quartz offers new and exciting colours with an impressive resemblance to natural marble.

TRENDSTONE XL.

BETTER:

- Minimize unsightly joins
- Economic cutting
- Reduce production time

At 340 x 190 cm, Trendstone XL quartz slabs are currently the biggest in the world. The benefits of the increased size are more economic cutting, less joins and decreased production time, giving overall a better look and at a better price.

MARBLE.

Since antiquity, marbles have been crafted into extraordinary works of art by artists, architects, and designers - earning a lifelong spot at the heart of culture and design. Considered a soft stone made up mostly of calcite, marbles are still very popular in domestic applications despite requiring maintenance. We are actively sourcing a wide range of marbles and travertines from around the world.

TRAVERTINE

Italy is well known for its natural stone. The Carrara region in Italy has the most famous marble quarry in the world. Carrara marble is unmatched in its whiteness and timeless classic beauty.

SUPER WHITE.

Super White is a mixture of dolomite marble and quartz. The presence of quartz provides this unique beautiful marble with increased hardness and resistance to staining and etching, allowing it to be commonly used for kitchen countertops. Our associated Brazilian supplier is the largest producer of Super White slabs, securing us with a reliable and consistent supply.
